GOAL AND OBJECTIVE

Dum Dum Motijheel College aims at contributing towards making education instrumental in the metamorphosis of current social conditions by the formation of inquisitive minds in teenage learners so that the much desired principles of social justice, equality of opportunity, respect for secular ideals and democratic values, enshrined in the Constitution of India, may prevail. The College inspires the youth to strive for excellence in every field of knowledge and become active, enthusiastic and revolutionary agents of social change in the country.

CAMPUS LIFE AND SUPPORT SERVICES

Rabindranath Tagore once said that education should be free from all hindrances. Knowledge confined within a few pages of text books would fail to nurture a child in his voyage into humanism. Being contented with only what is essential is not the religion of man. To what extent are we confined to only what is necessary and to what extent are we free? Our bodies may be confined in to mere length of three hands. However, constructing a house of the same size won't do. A lot of space is required for our convenience, or else a person's overall development cannot be achieved. The same is also true of education. Confining a youth within a fewpages of the text book will obviously obstruct his mind's natural growth. Thus, along with syllabus-oriented education and knowledge, extracurricular activities for free learning is a must, else a man's manhood would never flourish, despite his physical appearance and matured age.
