SECTION – 10

Calculation of percentage

To calculate percentage of best of four subjects the following methods should be followed.

Percentage calculation for Human Development Honours Course.

Let a candidate have marks in 6 subject as follows:

Bengali-78, English-74, Sociology-85, Pol. Science-80, History-65, Home Science-88

So best of four subjects are: Home Science-88, Sociology-85, Pol. Science-80,Bengali-78

Hence percentage of best of four= (88+85+80+78)/4 = 82.75%

But preference will be given to the candidates having Home Management as a subject at (10+2) level

Percentage calculation for Food & NutritionHonours Course.

Let a candidate have marks in 6 subjects as follows:

Bengali-78, English-74, Psychology-85, Nutrition-80, Chemistry-65, Home Science-88

So best of four + Chemistry subjects are: Home Science-88, Psychology -85,Nutrition -80,Bengali-78, Chemistry -65.

Hence percentage of best of four plus chemistry = (88+85+80+78+65)/5 = 79.20%

Percentage calculation for Food & NutritionHons. Course.

Let a candidate have marks in 6 subjects as follows:

Bengali-78, English-74, Psychology-85, Nutrition-80, Chemistry-83, Home Science-88

So best of four + Chemistry subjects are: Home Science-88, Psychology -85,Chemistry -83, Nutrition -80,Chemistry -83

Hence percentage of best of four plus chemistry = (88+85+83+80+83)/5 = 83.8%
